Hon. L. M. Lawson  
Commissioner, American Section  
International Boundary and Water Commission  
First National Bank Building  
El Paso, Texas

Dear Mr. Lawson:

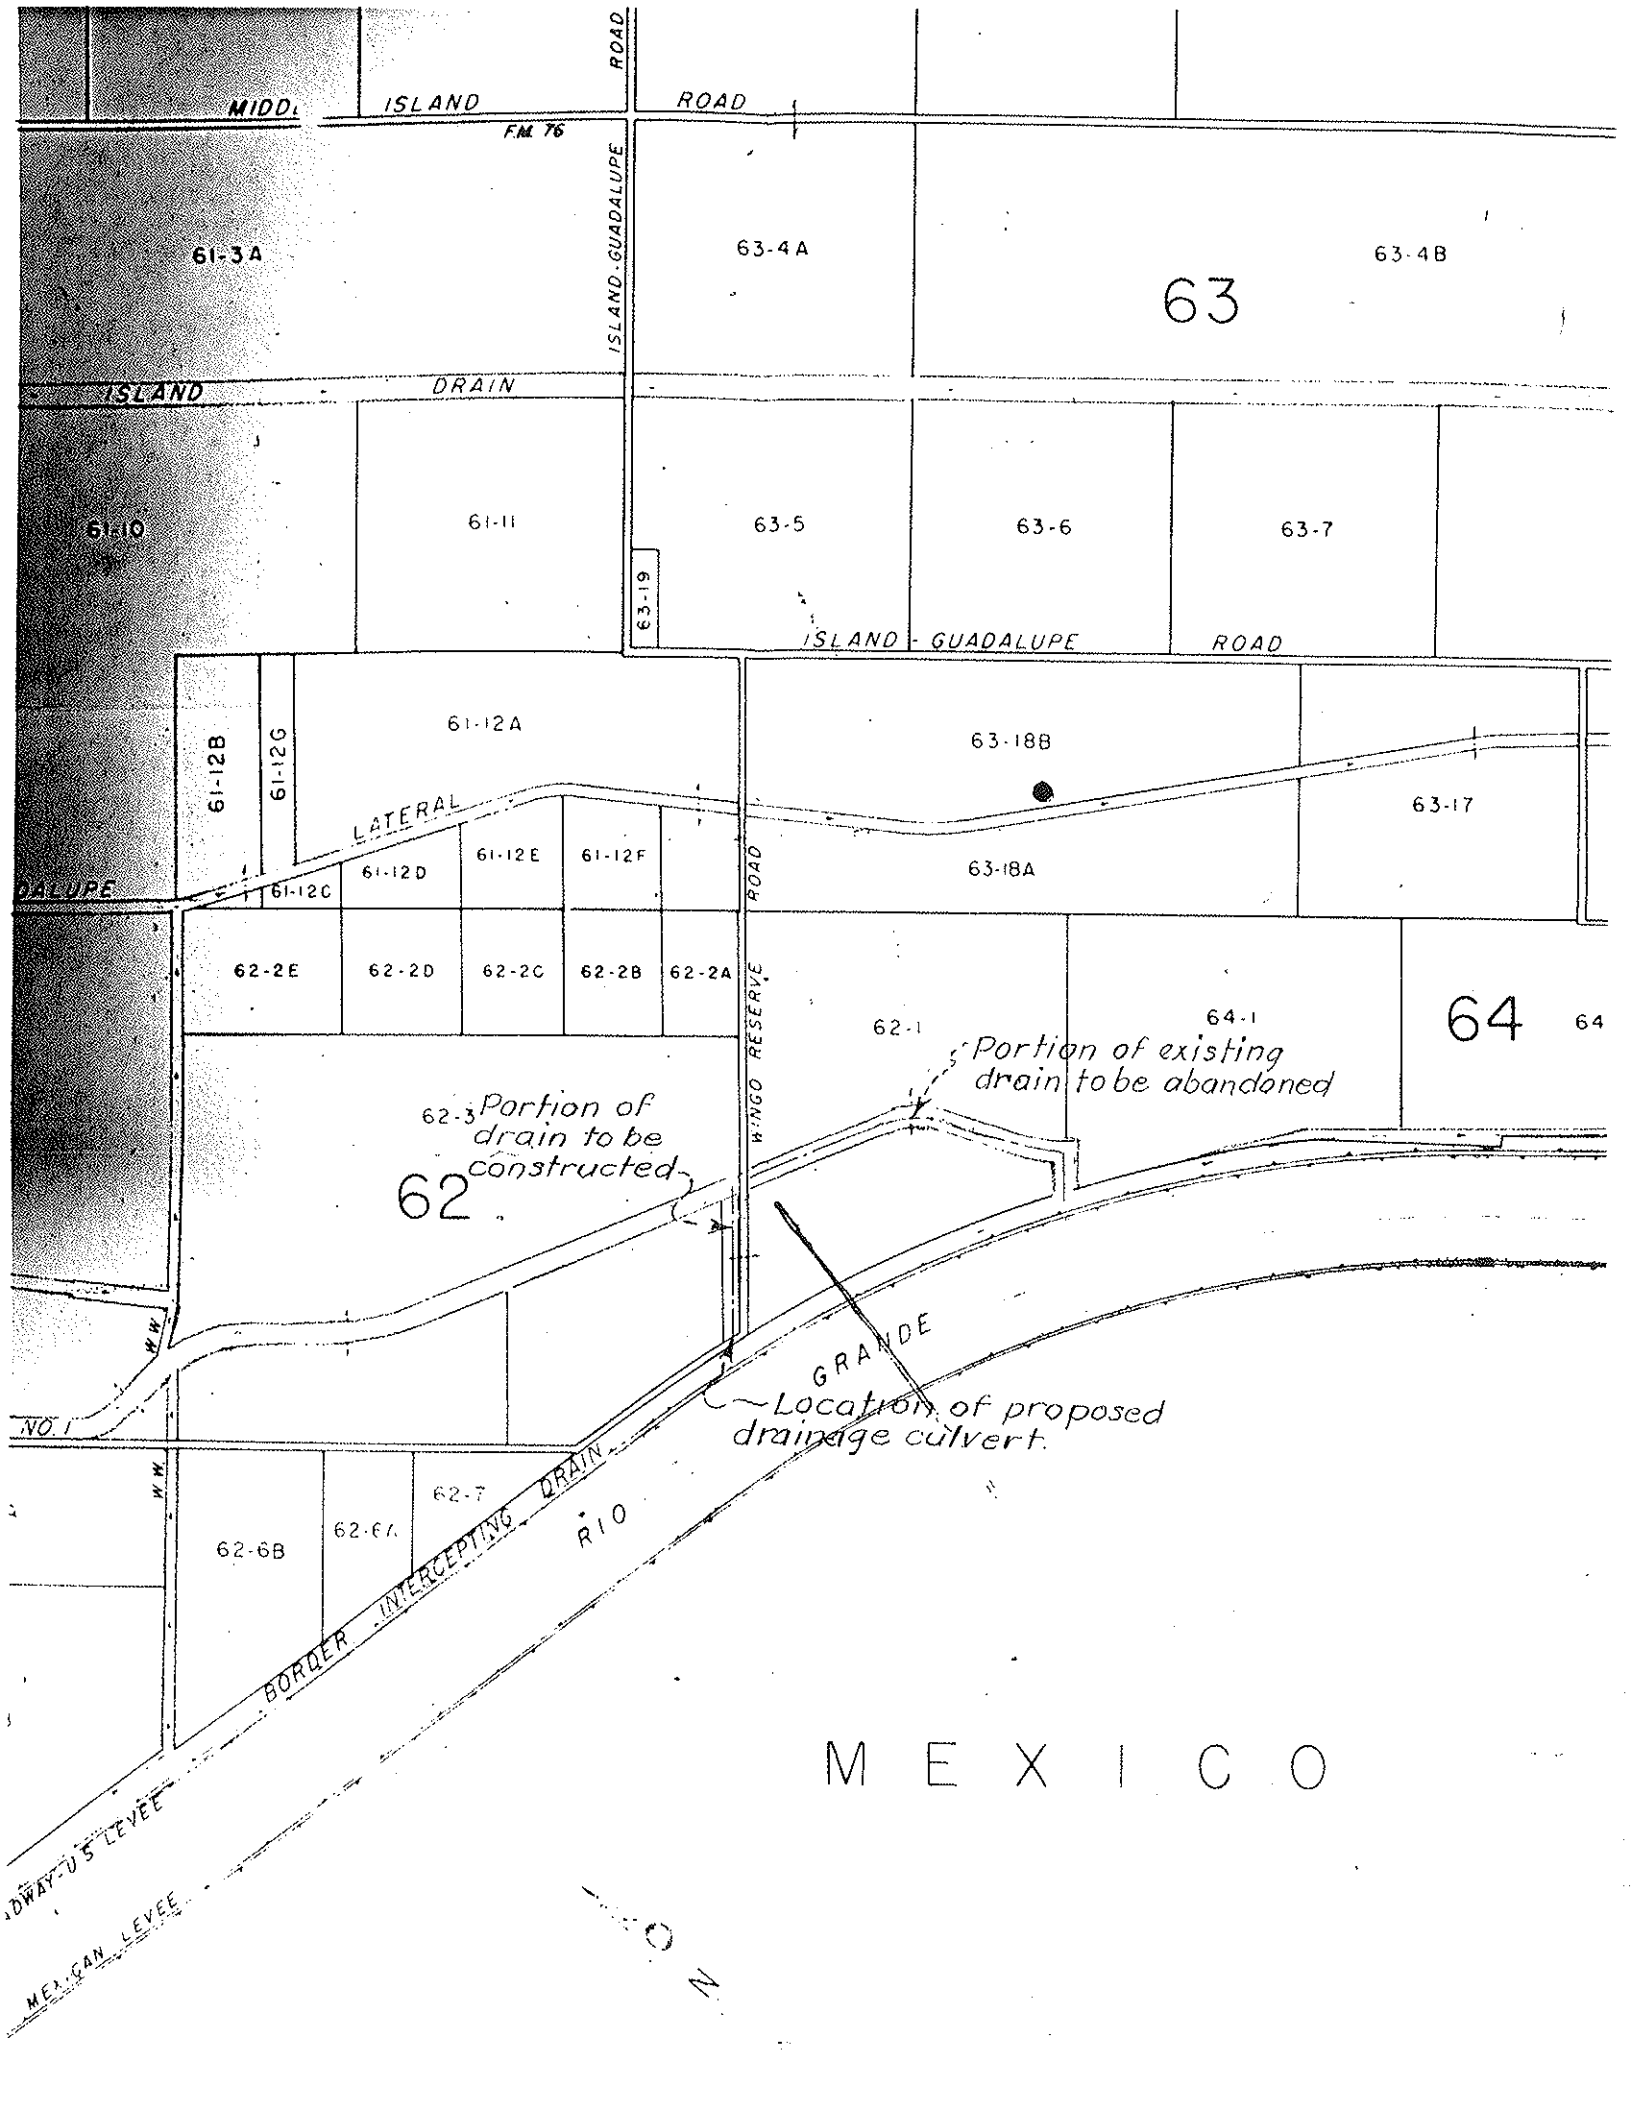

The Border Spur Drain No. 1 at present crosses San Elizario Grant, Block 62, Tracts 3 and 1, and discharges into the Border Intercepting Drain on the east boundary of Tract 1. It is proposed to abandon that portion of the Spur Drain through Tract 1 and to reconstruct the drain along the east boundary of Tract 3 with a 36-inch culvert pipe under the Wingo Reserve Road, which will discharge the drain flow into the Border Intercepting Drain approximately 2000-feet above the existing inlet location. This plan is shown in color on El Paso Valley Sheet 24, a copy of which is enclosed.

Inasmuch as the Border Intercepting Drain is on International Boundary and Water Commission rights of way, it will be appreciated if you will review this plan and advise us if the proposed relocation of the discharge for the Border Spur Drain No. 1 meets with your approval.

Sincerely yours,

W. F. Resch  
Project Manager
