#### INSTRUCTIONS.

The proper method of procedure in making purchases of lands under the Reclamation Act, in pursuance of the various rulings made by the Department of the Interior and the Department of Justice, is substantially as stated below, though, in some cases, deviations may be necessary in certain details. These instructions do not relate to lands withdrawn under the provisions of paragraph 2 of office circular No. 127, of October 28, 1905, where public lands are appropriated for irrigation purposes; in such cases the agreements for purchases of improvements may be entered into on Form 7-523.

As soon as possible after it has been ascertained that the property will be required, the engineer in charge

should forward to the Director of the Reclamation Service the following papers:

(a) Form 7-276 or 7-277, contract of sale, or memorandum of terms of proposed purchase, together with two copies of the same, one for the Returns Office and the other for the Director. When the land is donated,

use Form 7-277.

(b) Affidavit of disinterestedness.

(c) This form (7-281), report on land agreement.

(d) Certificate that the land is necessary for the purposes authorized by the Reclamation Act and that the consideration agreed upon is reasonable, together with his recommendation that the agreement be approved. This certificate should also contain other valuable information relative to the transaction not given in Form

(e) If the tract is described by metes and bounds, this report should be accompanied by a small sketch, with the boundary lines platted, showing all courses and distances and all references to public-land corners.

Service Order No. 65).

- 2. When the agreement has been approved, the original will be returned to the engineer, who will immdiately notify the vendor thereof and call upon him, pursuant to said agreement, to furnish an abstract of title, which shall later be extended to include any instruments subsequently recorded in connection therewith and also the record of the conveyance made in pursuance of said agreement, also to procure and have recorded, where proper for record, all assurances of title and affidavits which may be necessary and proper to show clear, unincumbered title in him. This will fix the date from which time may be counted in favor of the United States for extension of the option as provided in the agreement, in case it be found necessary to do so. If the abstract contains a large number of entries it should be indexed, and if the title to a canal system is involved the abstract should be accompanied by maps showing said system and the lands affected thereby. The abstract, certificates, maps, option, and form of deed which it is proposed to execute, referred to in next paragraph, should be submitted to the United States attorney for the district, after the engineer has received notice that instructions have been issued to the former by the Attorney General to examine and report on the subject of titles. These instructions will be requested by this office after the receipt of information from the engineer that the purchase of lands has become necessary.
- 3. The ordinary form of warranty deed, or its equivalent, in general use will be acceptable to the Department, only one material change being required, viz, the insertion of the italicized words in the clause to the following effect usually found in such deeds: "For and in consideration of . . . dollars to him in hand paid in pursuance of the provisions of the act of June 17, 1902 (32 Stat., 388), by the said party of the second part," etc. The grantee or second party must be the United States, and the words "heirs, executors, administrators, successors," etc., when referring to the second party, should be stricken out, and the sentence should read "the party of the second part and its assigns." One copy of the proposed form of deed should be retained by the engineer, to be executed by the vendor after the title has been found acceptable. A quit-claim deed will be acceptable in case title in fee is not vested in the vendor. dollars to him in hand paid. in case title in fee is not vested in the vendor.
- When forwarding the title papers to the United States attorney the engineer should request that, if apparently in satisfactory form and sufficient, they be forwarded to the Assistant Attorney General for the Interior Department, with his opinion thereon, otherwise that they be returned, pointing out the defects and indicating how they may be remedied.

The engineer in charge will notify the Director as soon as the abstract and form of deed have been for-

warded to the Assistant Attorney General.

6. The Assistant Attorney General will render an opinion upon the title, and upon the approval thereof by the Secretary of the Interior, all the papers will be returned to the engineer for action in pursuance of the findings of the opinion. After the title has been found satisfactory, the deed should be executed and recorded and the abstract extended to cover record of same, and also to cover payment of taxes, etc., pronounced by the Assistant Attorney General to be liens against the estate. Payment may then be made to the grantor by the local fiscal agent, provided no further defects are revealed by the extension of the abstract, or the papers may be forwarded to the Director for payment by Treasury warrant. In the former case the voucher covering payment should be accompanied by the option, abstract of title, deed, and copy of opinion. In case the title is found to be imperfect, the papers will be returned for the necessary corrections, and the abstract should then be brought up to date and again submitted through the United States attorney for re-examination.

7. In the case of a desert-land entry, when the approval has been given of the purchase of the possessory rights of an entryman, the certificate of the recorder of land titles in the county where the land is situated should be obtained, showing that he has searched the records of his office, and stating whether any instrument of con-

veyance, assignment or mortgage of the right obtained by the entry referred to there appears.

8. In the case of land covered by a homestead or desert-land entry where an entire legal subdivision is involved a relinquishment to the United States is sufficient, and a certificate should be obtained from the register and receiver of the local land office showing that the entry was valid and subsisting at the time of the relinquishment, and that it has been relinquished and cancelled on the records of the land office. This certificate should ment, and that it has been reiniquished and cancelled on the records of the land office. This certificate should accompany the voucher of the special fiscal agent in lieu of the deed or relinquishment, which will be retained in the local land office. Where less than a legal subdivision is to be acquired, which cannot be described in the ordinary way (by quarters and halves), subdivisional surveys should be made and the land lotted (Service Order 84 and Circular August 9, 1909). Relinquishment should then be secured of the lot needed as above.

9. In the public-land States improvements by entry the property of the certificate of the officer having charge to taxation, and before paying for land to be acquired by relinquishment the certificate of the officer having charge of the tax records in the county should be obtained showing the condition of the property is records to leave and

of the tax records in the county should be obtained showing the condition of the property in respect to levy and

payment of taxes for the years since the entry.

10. This Form (7-281) may be used as far as it is applicable in making a report of negotiations not concluded, all necessary additional information being given under heading No. 9, when for any reason it is advisable that the matter be further considered by the engineer in charge before final agreement. In this case it should be noted conspicuously on the first page and in the brief on back that it is a report of pending negotiations.

The person engaged in right of way negotiations or in negotiations for the purchase of lands will make monthly reports to the engineer in charge of the particular project, to be forwarded to the chief engineer at

Washington, D. C.

12. An agreement of sale may be made with any person owning the land in his own right, or with a trustee under a power in a deed, or with a person holding a power of attorney from the owner authorizing him to do so, or with an executor under power in a will. A certified copy of the evidence of authority must accompany the

13. The husband and wife must join in the agreement except where the local land laws or the conditions under which the property is held do not require it. It is better, however, to obtain in every case the signatures of both husband and wife. The agreement must state whether the vendor is married or single, a widow or

14. An administrator or an executor without a power to sell in the will has no authority to make a contract for the sale or conveyance of land or of a right of way thereon. In case of the death of the owner without a will, the real estate descends to the heirs; if he dies leaving a will, the real estate goes to the devisees, subject in both cases to the payment of debts of the decedent. The heirs or devisees must all join in the agreement.

15. Neither the guardian of a minor nor the guardian of an insane person has a right to contract to sell or convey the real estate of his ward without special authority from the proper court.

16. Before negotiations for the purchase of any tract are begun, it is important to learn whether the land

has been offered for sale, and at what time and price; also what price the present owner paid for the land.

17. Special conditions and limitations may be added, when necessary, to the printed forms of contract in reference to possession of premises, growing of crops, etc., pending final conveyance, but these conditions should be avoided as far as possible, and the time limit of the contract should be fixed with reference to these matters. Ample time should be given in the contract for the preparation of an abstract of title and for consideration of the same by the officials at Washington, D. C.
