Re: Drainage ditch rehabilitation adjacent to Plant Road

Please accept the following as confirmation to that which was stated to represent the desired end result of the meeting conducted in your office 10/09/01. As indicated, it is the desire of the property owners and the operators of businesses adjacent to the environmentally destabilized drainage ditch in question to seek an negotiated solution to the rehabilitation of the land in question.

With the foregoing as a basis for the desired solution the following is proposed for your consideration:

1. That a two (2) moratorium be implemented while the land owners are realistically made aware of the problem.
2. During the time span representing the two (2) weeks this office will work with your office and TNRCC to reach a mutually understandable and agreeable solution to the rehabilitation of the noted drainage ditch.

Your consideration is appreciated both in holding the meeting which took place 10/9/01 with Fred Haner, an associate and myself and the evaluation of this proposal.

Ms. Power;

Met with TEXDOT yesterday wherein there is verbal agreement to post the noted road with state approved "no dumping" signs. This action should be completed by the end of next week.

Would like to express appreciation for your time and efforts.

Peggy: I think someone needs to find out the following in connection with the Playa Intercepting Drain/Plant Road dispute:

1. What portion of the Playa Intercepting Drain is the city required to maintain under its contract with the bureau? I seem to recall that it is only a portion. You suggested Don Rush.
2. Does anyone know if the IBWC acquired some of the property that the Bureau was planning to acquire? Petitions on file in our office indicate that the Bureau was going to get deeds from property owners for construction of the Playa Intercepting Drain in the late 1920s, but documents filed with the County Clerk suggest that the IBWC, not the Bureau, may actually have taken title to the properties for the rectification project.

The IBWC representatives provided us with a copy of the map, which includes the area in question. It clearly indicates that all the property involved is under the IBWC jurisdiction. Keep in mind that the Playa Lateral also runs through this same location. Mr. Fifer asked me to send you a copy for your information, please advise.
